

Tired of mowing? Try a meadow!

This meadow garden used to be a lawn not so long ago. Consider making the switch in your front yard.

Before: LAWN...

After: MEADOW!

Watering	3-4 times per week
Maintenance	Mow 2 times per week; control weeds and fertilize regularly for best appearance
Appearance	Tidy green carpet, same year-round
Habitat value	2-3 species of turf grasses = little habitat value

Watering	Deep watering every 2 weeks
Maintenance	Hand clip or mow 2 times per year; some hand-weeding required
Appearance	Diverse colors and textures as grasses, bulbs, and other flowers bloom
Habitat value	Diversity of grasses and flowers provide habitat for birds, bees, and butterflies
